

# LET'S TALK ABOUT HOW TO TALK RIGHT

It is rightly said, a language cannot be taught, it can only be learnt and the proven way to learn any language is to listen and talk and talk and only talk in that language.

'Talk Right' gives ample opportunity to listen and talk in English till it is on the tip of your tongue..

A Product Of

**WE KNEW  
OUR LIMITS  
WE DECIDED TO  
CROSS THEM**

In 25 years of teaching 'how to speak in English', we observed that the conventional teaching system did not allow enough time to the students to speak. While 'TALK RIGHT' a software based 'Language Lab' is designed and developed with the objective to allow the students to listen & speak for 100% of the Class room time.

**MODULES**  
**BASIC**

**ADVANCED**

**ENGLISH GRAMMAR**

#### **STUDENTS**

**'100% individualized practice time'**

1. Listen, Speak, Read, Repeat, Record & Role Play
2. Practice in Pairs
3. Participation in assigned group activities
4. Reading Text with Audio
5. Real time translation & recording
6. Listening and comprehension tests

#### **FACULTY**

**'As a facilitator'**

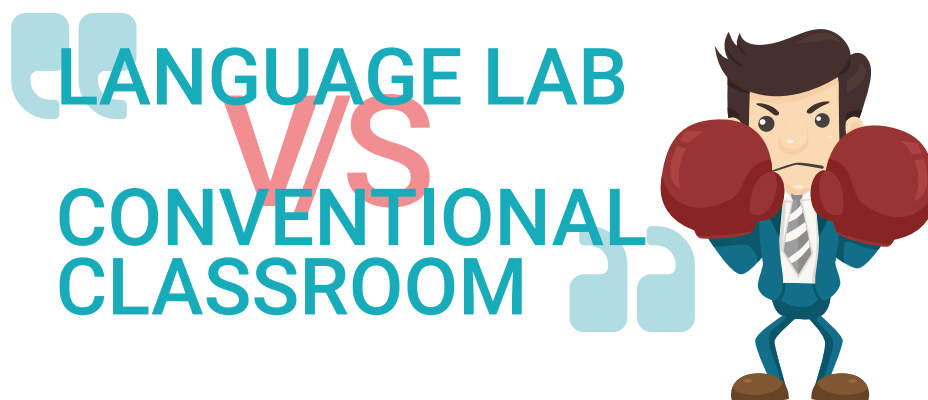

1. Assign lessons individually
2. Observe and listen to practicing students
3. Pairing for interactive sessions
4. Create groups and assign task
5. Assign listening lessons & comprehension tests
6. Check audio recorder for correct diction .

The agreed basic principles of mastering the art of fluently delivering in any language are Listening, Speaking, Reading & Writing. This is the established order & is followed unconsciously when we learn our mother tongue.

A reversal to this has an undesirable effect which is seen in conventional classrooms where one starts with writing, learning spellings & grammar, reading paragraphs and then trying to speak. The result is a laboured delivery of the language due to lack of enough auditory exposure, which is limited to that of the instructor only, whose exposure to the language might have also been in the similar manner.

### Disadvantages: Conventional Classroom:

- Maximum time is consumed by Faculty in giving instructions to the class
- The order of effective teaching i.e, listen, speak, read & write is invariably not followed
- Common lessons to the entire class
- Introverts hardly get chance to speak
- Only 30% students participate in the activities
- Limited opportunities to speak and practice, does not allow the language to come on tip of the tongue
- Need is of extraordinary faculty to deliver effective results, which is more than often not met

### Advantages:

#### Talk Right Language Lab:

##### FOR FACULTY :

- Least time is consumed in giving instructions
- Ready to deliver content raises the effectiveness of every Faculty
- The order of effective teaching i.e, Listen, speak, read, write is never missed
- Audio recorder enables to monitor progress of every student, individually.
- A Faculty with understanding of language and good pronunciation can give excellent results
- Teaching and learning being hi-tech is enjoyable

##### FOR STUDENTS:

- The order of effective teaching i.e, listen, speak, read, write is followed by default
- Unlimited opportunity of listening and speaking
- Option to repeat, record, and review
- Continuity even in case of absence is maintained
- One to one interaction with Faculty adds to confidence
- Un-interrupted and continued speaking forces the language on the tip of the student's tongue

## HOW TO SETUP A LANGUAGE LAB

- Setup a lab equipped with adequate number of computers and headphones with in-built mikes for recording.
- Our engineer will install the software and content in the systems.
- Training to teachers to facilitate the use of the software and hardware.
- Support and monitoring of usage.
